

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER D-244-5

Relating to Exemptions Under Section 27156  
of the Vehicle Code

Jim Wolf Technology, Inc.  
POP-Charger Air Filter Kit

Pursuant to the authority vested in the Air Resources Board (ARB) by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the installation of the POP-Charger Air Filter Kit, manufactured and marketed by Jim Wolf Technology, Inc., 212 Millar Avenue, El Cajon, CA 92020 has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the Nissan Motor Company vehicles listed in Exhibit A, **excluding the following 2005 model year Low Emission Vehicle II Super Ultra Low Emission Vehicle (LEV II SULEV) test group: 5NSXV02.585A.**

The POP-Charger Air Filter Kit includes the following main components: reusable air filter element, assorted brackets, and hardware. The stock air box is replaced by the filter, but the stock intake tube is retained. All other emission-related components are in the stock location relative to the throttle body.

This Executive Order is valid provided that the installation instructions for the POP-Charger Air Filter Kit will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

This Executive Order shall not apply to any POP-Charger Air Filter Kit advertised, offered for sale, sold with, or installed on a motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Changes made to the design or operating conditions of the POP-Charger Air Filter Kit, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.
